# TECHNICAL INFORMATION – SECTION “A”

## CANSKATE CHALLENGE ELEMENT EVENT

This CanSkate Challenge Element Event pilot initiative was developed by Skate Canada in support of the organization’s on-going implementation of the *Long Term Athlete Development Model*. The event has been formatted to recognize the philosophies of the *Learn to Skate* stage which aims to provide skaters with the opportunity to showcase their skills in a fun and interactive environment. The focus of the event is on individual skill improvement and therefore performances are not ranked. Instead of the traditional podium presentations for first, second and third, all skaters will receive a certificate indicating their overall performance level award (Gold, Silver, Bronze or Merit). The award level will be based on the assessment of four individual elements. Each element is evaluated using three pre-determined performance standards. Your skater will receive a full overview of their performance on the scoring standards chart which will be provided along with their award certificate.
