

## HTML FILE IDENTIFICATION FOR CSS

In order to ensure a consistent means of identifying HTML files created in CSS, the following should be used in front of the names that are automatically generated by the software:

CATEGORY	SYMBOL
Senior	S
Junior	Jr
Novice	N
Pre-Novice	PN
Juvenile	Jv
Pre-Juvenile	PJ
<hr/>	
Men	M
Women	W
Pair	P
Dance	D
SEGMENT	SYMBOL
Short Program	S
Free Program	F
Pattern Dance	PD

*For example:*

<i>Senior Men Short Program</i>	<i>SMS</i>
<i>Junior Dance Short Program</i>	<i>JrDS</i>
<i>Novice Pair Free Program</i>	<i>NPF</i>
<i>Pre-Novice Women Free Program</i>	<i>PNWF</i>
<i>Juvenile Pattern Dance 1</i>	<i>JvPD1</i>
